

Version 2.1

Revision Date 08/31/2015

Ref. 130000051352

This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

| Product name<br>Tradename/Synonym                               | <ul> <li>Opteon<sup>™</sup> XP10 (R-513A) Refrigerant</li> <li>Opteon<sup>™</sup> 513A</li> <li>R-513A</li> <li>XP10</li> </ul>  |
|---|--|
| Product Grade/Type  | : ASHRAE Refrigerant Number Designation: R-513A  |
| Product Use   | : Refrigerant, For professional users only.  |
| Restrictions on use   | : Consumer use   |
| Manufacturer/Supplier   | : The Chemours Company FC, LLC<br>1007 Market Street<br>Wilmington, DE 19899<br>United States of America   |
| Product Information<br>Medical Emergency<br>Transport Emergency | <ul> <li>1-844-773-CHEM (outside the U.S. 1-302-773-1000)</li> <li>1-866-595-1473 (outside the U.S. 1-302-773-2000)</li> <li>CHEMTREC: +1-800-424-9300 (outside the U.S. +1-703-527-3887)</li> </ul> |
| Other information   | : For Research and Development purposes only. Must be handled only under the direct supervision of a technically qualified individual.   |

### SECTION 2. HAZARDS IDENTIFICATION

#### Product hazard category Gases under pressure

Liquefied gas

:

Version 2.1

Revision Date 08/31/2015

Ref. 130000051352

| Label  | content |
|--------|---------|
| Pictog | ram     |

| Signal word                   | : | Warning  |
|-------------------------------|---|--|
| Hazardous warnings            | : | Contains gas under pressure; may explode if heated.      |
| Hazardous prevention measures | : | Protect from sunlight. Store in a well-ventilated place. |

#### Other hazards

Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing., Rapid evaporation of the liquid may cause frostbite., Misuse or intentional inhalation abuse may cause death without warning symptoms, due to cardiac effects., May cause cardiac arrhythmia.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Component                               | CAS-No.  | Concentration |
|---|----------|---------------|
| 2,3,3,3-Tetrafluoropropene (HFO-1234yf) | 754-12-1 | 56 %          |
| 1,1,1,2-Tetrafluoroethane (HFC-134a)    | 811-97-2 | 44 %          |

Version 2.1

Revision Date 08/31/2015

Ref. 130000051352

#### **SECTION 4. FIRST AID MEASURES**

| General ac                           | dvice                          | :   | Never give anything by mouth to an unconscious person. When symptoms persist or in all cases of doubt seek medical advice.  |
|--------------------------------------|--------------------------------|-----|---|
| Inhalation                           |                                | :   | Remove from exposure, lie down. Move to fresh air. Keep patient warm and at rest. Artificial respiration and/or oxygen may be necessary. Consult a physician.                                     |
| Skin conta                           | ct                             | :   | Take off contaminated clothing and shoes immediately. Flush area with lukewarm water. Do not use hot water. If frostbite has occurred, call a physician.  |
| Eye contac                           | ct                             | :   | Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes.<br>Get medical attention.   |
| Ingestion                            |                                | :   | Is not considered a potential route of exposure.  |
| Most impo<br>symptoms/<br>and delaye | rtant<br>/effects, acute<br>ed | :   | Anaesthetic effects Light-headedness irregular heartbeat with a strange sensation in the chest, heart thumping, apprehension, feeling of fainting, dizziness or weakness Narcotic effects         |
| Protection                           | of first-aiders                | :   | If potential for exposure exists refer to Section 8 for specific personal protective equipment.   |
| Notes to pl                          | hysician                       | :   | Because of possible disturbances of cardiac rhythm, catecholamine drugs,<br>such as epinephrine, that may be used in situations of emergency life support<br>should be used with special caution. |
| SECTION 5. F                         | IREFIGHTING MEA                | 4SI | JRES  |
| Suitable ex                          | xtinguishing media             |     | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment., Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.               |
|                                      |                                |     | 3 / 13  |
|                                      |                                |     |   |

| Opteon <sup>™</sup> XP10 (R-513A)                         | Refrigerant  |
|---|--|
| Version 2.1   |  |
| Revision Date 08/31/2015                                  | Ref. 13000051352   |
| Unsuitable extinguishing media                            | : No applicable data available.  |
| Specific hazards  | : The product is not flammable.  |
| Special protective equipment for firefighters             | : In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. Wear neoprene gloves during cleaning up work after a fire.   |
| Further information                                       | : Cool containers/tanks with water spray.  |
| SECTION 6. ACCIDENTAL RELEA                               | SE MEASURES  |
| NOTE: Review FIRE FIGHTING<br>Use appropriate PERSONAL PI | MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean-up.  |
| Safeguards (Personnel)                                    | : Evacuate personnel to safe areas. Ventilate area, especially low or enclosed places where heavy vapours might collect. Refer to protective measures listed in sections 7 and 8.  |
| Environmental precautions                                 | : Should not be released into the environment.   |
| Spill Cleanup   | : Evaporates.  |
| Accidental Release Measures                               | : Avoid open flames and high temperatures. Self-contained breathing apparatus (SCBA) is required if a large release occurs.  |
| SECTION 7. HANDLING AND STO                               | RAGE   |
| Handling (Personnel)                                      | <ul> <li>Avoid breathing vapours or mist. Avoid contact with skin, eyes and clothing.<br/>Provide sufficient air exchange and/or exhaust in work rooms. For personal protection see section 8.<br/>Handle in accordance with good industrial hygiene and safety practice.</li> <li>4 / 13</li> </ul> |
|   |  |

| Opteon <sup>™</sup> XP10 (R-513A) Refrigerant           |   |  |
|---|---|--|
| Version 2.1   |   |  |
| Revision Date 08/31/2015                                | Ref. 130000051352   |  |
| Handling (Physical Aspects)                             | : The product should not be mixed with air for leak testing or used with air for any other purpose above atmospheric pressure. Contact with chlorine or other strong oxidizing agents should also be avoided.   |  |
| Dust explosion class                                    | : Not applicable  |  |
| Storage   | <ul> <li>Do not drag, slide or roll cylinders. Never attempt to lift cylinder by its cap.<br/>Use a check valve or trap in the discharge line to prevent hazardous back<br/>flow into the cylinder. Keep at temperature not exceeding 52°C. Keep<br/>containers tightly closed in a dry, cool and well-ventilated place. Protect from<br/>contamination. Protect cylinders from damage. Keep away from direct<br/>sunlight. Store only in approved containers.<br/>No materials to be especially mentioned.<br/>The product has an indefinite shelf life when stored properly.</li> </ul> |  |
| Storage period  | : > 10 yr   |  |
| Storage temperature                                     | : < 52 °C (< 126 °F)  |  |
|   |   |  |
| Engineering controls                                    | : Ensure adequate ventilation, especially in confined areas.  |  |
| Personal protective equipment<br>Respiratory protection | : For rescue and maintenance work in storage tanks use self-contained breathing apparatus. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing.   |  |
| Hand protection   | : Additional protection: Impervious gloves  |  |
| Eye protection  | : Wear safety glasses or coverall chemical splash goggles. Additionally wear a face shield where the possibility exists for face contact due to splashing, spraying or airborne contact with this material.   |  |
| Skin and body protection                                | : Where there is potential for skin contact have available and wear as appropriate impervious gloves, apron, pants, and jacket.   |  |
| Exposure Guidelines                                     |   |  |
|   | 5 / 13  |  |
|   |   |  |

Version 2.1

### Opteon<sup>™</sup> XP10 (R-513A) Refrigerant Version 2.1 Revision Date 08/31/2015 Ref. 130000051352 Skin sensitization Does not cause skin sensitisation., Guinea pig Does not cause respiratory sensitisation., Rat Inhalation Repeated dose toxicity : Rat gas NOAEL: 50000, No toxicologically significant effects were found. Carcinogenicity Not classifiable as a human carcinogen. Overall weight of evidence indicates that the substance is not carcinogenic. Mutagenicity Animal testing did not show any mutagenic effects. Tests on bacterial or mammalian cell cultures did not show mutagenic effects. Reproductive toxicity No toxicity to reproduction : No effects on or via lactation Animal testing showed no reproductive toxicity. Teratogenicity : Animal testing showed no developmental toxicity.

### Carcinogenicity

The carcinogenicity classifications for this product and/or its ingredients have been determined according to HazCom 2012, Appendix A.6. The classifications may differ from those listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or those found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition).

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, or OSHA, as a carcinogen.

Revision Date : 08/31/2015

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Significant change from previous version is denoted with a double bar.

# **Product Information**

Opteon<sup>™</sup> XP10 (R-513A) is a non-ozone depleting, low global warming potential (GWP) hydrofluoro-olefin (HFO)based refrigerant developed to replace R-134a in positive displacement, direct expansion, medium-temperature commercial and industrial chillers, as well as flooded and/or centrifugal chillers. Opteon<sup>™</sup> XP10 is an excellent capacity and efficiency match for R-134a in new systems, as well as for retrofit of existing systems, offering an optimal balance of properties including high energy efficiency and environmental sustainability.

### Applications

- Medium-temperature circuit of hybrid cascade systems
- Medium-temperature commercial and industrial
   DX refrigeration
- Water chillers, air conditioning, and heat pumps
- Ice rinks
- New equipment/retrofit of existing systems

### **Benefits**

- Low GWP: 56% reduction compared to R-134a<sup>(1)</sup>
- Excellent capacity and energy efficiency match to R-134a
- Close performance match to R-134a for retrofit and new systems
- Azeotrope with zero glide
- Safe and nonflammable (ASHRAE<sup>(2)</sup> A1)
- Approved by major equipment and component
  manufacturers

- Extensively field tested with no equipment/lubricant/ seal changes (superheat adjustment may be required)
- Compatible with existing R-134a equipment design/ lubricants
- Retrofit solution for HCFC service blends, such as R-401A, R-401B, and R-409A
  - Oil change and seal replacement is necessary when retrofitting systems running on HCFC service blends.

<sup>(1)</sup>According to Assessment Report 5 (AR5) <sup>(2)</sup>American Society of Heating, Refrigerating, and Air-Conditioning Engineers

#### Opteon<sup>™</sup> XP10 Properties
